SAFETY SOLUTIONS WITHOUT THE FINE PRINT

AT SAF-GARD WE'VE BUILT OUR REPUTATION ON GIVING YOU THE PROTECTION AND COMFORT YOU NEED.

No fine print. No BS. Just honest, custom safety shoe solutions that simplify everything. We design and implement safety footwear programs for everything from large industrial and government operations to transportation and service organizations. And shopping is easy. Employees can get the safety footwear they need from any of our retail stores, our mobile shoe stores or online.

We've been family-owned for 40+ years, and we're proud of that fact. It's allowed us to treat our customers like people instead of numbers on a spreadsheet. That's how you really get to know someone and understand their needs. And that's how we're able to offer solutions that help you power through your toughest days.

Designed to channel liquids like oil, grease and water.

Maximum surface area for better traction.

Available in steel and soft toe styles.

Many of our safety shoe styles are available with the patented MaxTRAX® slip-resistant outsole. This exclusive offering from our sister company SR Max® gives you some incredible traction, ideal for any slick work environment. In fact, MaxTRAX® performs so well in independent tests that it's trusted by many of our favorite brands, like Timberland PRO®, SKECHERS Work and Reebok to name a few.
